Tentative Job Location :

LAM Research

LAM Research

Core

Senior Electrical Engineer

Bangalore

Description :

- Design of components and subassemblies for semiconductor processing equipment, with specific focus on high voltage power distribution systems, PCBs, electronic parts, components or integrated circuitry for electronic equipment, or other hardware systems and/or electrical engineering applications.
- Coordinate design activities with mechanical engineers to drive robust design decisions in a fast-moving environment
- Collaborate with counterparts in Lam Research locations to obtain requirements and validate design against the requirements
