

Company : Nymble Labs Private Limited
Company Name : Nymble Labs Private Limited
Nature Of Business : Consumer Electronics
Designation : Computer Vision Engineer
Tentative Job Location : Bengaluru

About Nymble:

Nymble is a young gutsy consumer robotics startup based out of Bangalore solving the problem of eating fresh, good nutritive food every day.

We believe that the future of eating is eating at home. And we are building that future by building Julia - a Kitchen Robot. Julia sits on your kitchen top and cooks fresh food for you, at the tap of a button, tailored to your taste - all without you having to put in time and effort.

Nymble has always operated with global ambitions. Having run preliminary user trials in San Francisco and in India, we are now expanding our team, with financial backing from some of the smartest and boldest entrepreneurs in the global tech ecosystem.

What will you do?

1. Take end-end responsibility of developing deep networks for our Kitchen Robot to replicate the intelligence of a human chef.

Description :

2. Segment, identify, and process areas of interest in cooking pan like color and texture change.
3. Designing algorithms for annotating images via automated and semi-automated means.
4. Work alongside professional chefs and scale the above model architecture to be able to cook recipes from different cuisines.

What makes you a match for us?

1. You have a masterful over Keras/TensorFlow/PyTorch
2. You have at least 3 years of work experience.
3. You are fluent with the internal mechanics of DNNs and CNNs.
4. At a basic fundamental level, you understand how these networks are built up and familiar with every operation from Back-Prop to Batch Norm.
5. You have the ability to read and comprehend research papers and recreate their results.
6. Ability to work in a fast-paced, high-pressure startup environment and adapt to rapidly changing requirements.
