

Company :	Zomato Private Limited
Company Name :	Zomato Private Limited
Nature Of Business :	Food Tech
Designation :	Software Development Engineer I
Tentative Job Location :	Gurugram

Zomato as an organization has grown and scaled multifold over the last few years. We are committed to bringing the best food to everyone; no matter who they are and what they can afford.

Creating and re-inventing has been a key practice at Zomato and at this point we require folks who can help us keep pace with the dynamic ecosystem we are all a part of. Check out our blog for all the latest updates.

About the role

Description : As Zomato continues to grow across verticals, we're adding new features and launching new services in various geographies continuously. You will be working with a small team owning a Product/Service, utilizing the best tools to solve real world problems efficiently. As you continue to demonstrate your ability to solve complex problems, you'll own larger systems and solve bigger problems increasing the breadth of impact.

Here's what we are looking for

- **Strong academic background**
- **Solid understanding of Computer Science Fundamentals - Data Structures, Algorithms, Databases, Networks and Operating Systems**
- **Ability to write Efficient and Clean codes in any programming language**
- **Contribution to Open Source Projects and experience with personal projects or any other real world contributions in the field of Software would be a big**
