Quantitative Researcher
Singapore

Job description:

The quantitative researchers design and backtest trading models, which form the most important elements in the final trading strategies. They work in groups or independently, depending on the projects and/or the researchers' preference. Creativity and innovation are what we are looking for in this position.

Qualification:

- Recent Master/PhD from a science, engineering, or related field. Bachelors with exceptional performance will also be considered
  - Solid background in mathematics
  - Strong programming skills
  - Strong problem solving and quantitative skills
  - Possess the desire and will to learn complicated topics, to solve difficult problems, and to handle tedious tasks carefully
- Description :

The following skills are bonus in recruitment and are required before on board:

- Comfortable with Linux/Unix
  - Familiar with at least one scripting language, e.g. python, awk, etc
