

Company : **O9 Solutions**
Company Name : **https://o9solutions.com**
Nature Of Business : **IT**
Designation : **Associate Software Engineer - UI**
Tentative Job Location : **Bangalore**

Description

Our company is seeking to hire skilled Software Developers to help with the development of o9 Solutions Platform. You will work with other Developers and Product Managers throughout the software development life cycle. We would like to meet you if any of the following is true

- You love writing performant code
- Unsolved algorithm problems can give you sleepless nights
- Slow running code gives you physical discomfort
- Debugging large and complex code base is your undisclosed desire

Responsibilities:

- Write code where bugs and performance optimizations are hard to find
- Design efficient algorithms to solve software problems
- Perform development testing for every new functionality
- Write unit tests to achieve maximum code coverage
- Collaborate with QA team to suggest functional tests

Description :

- o9 Solutions Platform is the collective responsibility of Backend Developers but individuals are expected to take ownership of code they write. This includes
 - Fix bug reporting by QA or the users
 - Look for optimizations in the code
 - Be passionate about the code you wrote
 - Be humble and cheerful

o9 contains many components as part of its development stack. Some part of the code is written in C# while some other components are written in Java and Python. We are open to adopting other programming languages if there is a good reason to do that.

Requirements:

- Bachelor's Degree in Computer Science or equivalent is required
- Good understanding of any object oriented programming language
- Ability to work independently and multi-task effectively
- Most important skill: Passion to learn and adapt to new technology
