Officer (C09)
Mumbai

Model Risk Management (MRM) is an independent oversight function. The Mumbai center is one of the five MRM locations across the globe and is responsible for development and maintenance of Model Risk Management Policy and procedures, for evaluation and approval of high and medium risk models used in global consumer risk management.

The position will be part of the Model Risk Management, India (Mumbai) team. His/her primary role is to evaluate conceptual soundness and model performance of scoring and risk segmentation models that are developed by other Global Consumer Teams. The roles are very critical to the organization, as MRM’s authorization on the use of the BAU models are based on the reviewer’s evaluation results. The reviewer will adhere to the Model Risk Management Policy when evaluating models and ensure models, documentation, and monitoring MIS are compliant with applicable policies.

Description :

Key Responsibilities:

- Review and validate new and existing model and framework, provide effective challenge, ensure validation work quality.
- Help manage model risk across the model lifecycle including model validation, performance evaluation and annual model reviews.
- Challenge and continually improve MRM Guidance on modeling approaches and model performance testing.
- Contribute to strategic, cross-functional initiatives within MRM organization.

There will be a very significant amount of learning and growth opportunities with this position, from both technical and leadership perspective. The incumbent will be exposed to different areas of business operations and a variety of modeling approaches, including machine learning on top of industry standard tools.
