

**Company :** SAP Labs India pvt Ltd

**Company Name :** SAP Labs India Pvt Ltd

**Nature Of Business :** Software Development

**Designation :** Developer Associate “ SAP T&I Central Engineering, DX

**Tentative Job Location :** Bangalore, Pune, Gurgaon

**Description :**

**SAP, Originally known for leadership in enterprise resource planning (ERP) software, SAP has evolved to become a market leader in end-to-end enterprise application software, database, analytics, intelligent technologies, and experience management. A top cloud company with 200 million users worldwide, SAP helps businesses of all sizes and in all industries to operate profitably, adapt continuously, and achieve their purpose.**

**The Kubernetes core team is adopting the Kubernetes open-source system for automating deployment, scaling, and management of containerized SAP solutions and business applications. Evolving and enhancing SAP’s open source project “Gardener” <https://gardener.cloud> as SAP’s way to provide a homogeneous and universal Kubernetes-based container management is the key deliverable of this team, in close collaboration with the other teams in other SAP locations. Project “Gardener” is providing solutions to run and orchestrate Kubernetes clusters on public cloud, hybrid or SAP owned infrastructures for a variety of enterprise use cases.**

**Wherever possible, we offer opportunities for professional development and coaching.**

**The Bengaluru Gardener Core team’s responsibility, among others, currently comprises of the concrete responsibility for “Gardener” <https://github.com/gardener> namely -**

- Managing the machines/nodes of the cluster across different cloud provider via machine controller manager which provide an efficient rollout of clusters across providers with different machine configurations.**
- Etcd-backup-restore as the central store for Gardener objects with first class cloud qualities of backup and restore capabilities to ensure Business Continuity even during failures.**
- Control plane engineering challenges us each day to find creative solutions to manage the resource**

**usage of clusters. We have developed controllers like HVPA <https://github.com/gardener/hvpa>-controller to being with but the road ahead is to make the machines manage themselves.**

**If you are interested in cloud native development based on cutting-edge technology like Kubernetes and building-up an active open source community, you will find an inspiring and professional environment for your learning and growth. As an Associate Developer, you will be working in a technically skilled team and you will design, develop and run a Kubernetes cluster as a service within the context of SAP central engineering services. We emphasize teamwork and open-source working culture of consumption, trust and contributing back to the community.**
