

Company : Platform9 Systems India Pvt. Ltd.
Company Name : Platform9 Systems India Pvt. Ltd.
Nature Of Business :
Designation : Associate Software Engineer
Tentative Job Location : Pune

JOB DESCRIPTION - ASSOCIATE SOFTWARE ENGINEER

platform9 makes cloud-hosted management systems for open source software on customer infrastructure. Many of our customers operate their own hardware, and use Platform9 to deploy, upgrade and support Openstack and/or Kubernetes on their hardware. Others use Platform9 to manage virtual machine or container workloads on AWS, GCP or Azure while some use a hybrid of on-premise and public cloud infrastructure. In other words, Platform9 enables its customers to get the most out of their cloud infrastructure in the least amount of time.

We work on a variety of customer infrastructure at all ranges of scale, with different virtualization, networking and storage configurations.

Our team builds robust, scalable distributed systems that provide delightful customer experiences. As a fast-moving startup, we have the satisfaction of seeing our work directly affect our customers on a daily basis.

Job Requirements:

The candidate should:

- have in-depth knowledge of core computer fundamentals like data structures and algorithms
- be exposed to Operating System concepts like multi-threading, socket programming etc.
- possess strong logical, analytical and problem-solving skills
- be able and willing to learn new technologies quickly. Should be a good team player.
- have passed 10th & 12th std. exams with 80%, and should have average CGPA of 8+ during engineering / other graduate / post-graduate exams.

Description :

- Good Team players and good attitude.
- Should have a lear to learn new technologies.

 Acquaintance with latest technologies like cloud, virtualisation would be a plus.

Candidates studying in final year from engineering (Comp. Engg., IT, E&TC), MCA / MCS etc. are welcome to apply.

Our Technology Stack:

We use the following technologies; we have no minimum experience required for any of them, but you will need to learn them relatively quickly on the job, if you're not already familiar with them.

Python programming language Bash scripting
 Linux
 OpenStack
 Kubernetes, with Docker containers NodeJS and Go

As a growing startup, Platform9 offers the following benefits:

Competitive salary and equity
 Mediclaim coverage for you and your family Paid parental leave
 Relocation support
 Flexible work hours
 Flexible vacation policies
 Free breakfast, lunches and snacks
