

Company : Optum - United Health Group
Company Name : Optum - United Health Group
Nature Of Business : Optum Global Solutions
Designation : UX Designer
Tentative Job Location : Hyderabad/ Noida/ Gurugram

We are looking for passionate, opinionated and creative UI Designer who is responsible for designing interactive responsive web based, mobile, and/or desktop applications, using Industry best practices and standards, to deliver high value and quality.

Job Responsibilities

- Interacting with stakeholders to understand Business Requirements (verbal and/or written) and effectively translate and apply them to create persuasive User Experience Design concepts for the applications/ products
- Work with all kinds of passionate developers, BA's, and challenging clients to design and build new features
- Investigating user needs and requirements, and identifying areas where constructive changes can have maximum impact
- Building world class healthcare mobile application for iOS, Android and Hybrid platforms
- User interaction design for complex UI intensive applications: analysis of workflow, creation of Lo/Hi-Fi mockups and prototypes, design consultations
- Closely work with developers to get the pixel perfect design and ensure that there is no error while translating the wireframes & visual design to code
- Conduct design workshops and presentations to transfer UX know-how to those interested within UHG
- Innovate/prototype new ideas and expert in applying design thinking

Description :

Skill Requirements

- Fresh talent in UX Design with an awesome portfolio
- A degree/ post-graduation in design OR equivalent education from a reputed institute
- Expert in designing mobile apps for iOS, Android platforms following their respective design guidelines
- Effective with popular design tools like: Sketch, Photoshop, Axure, and InVision
- Skilled in and well read on design thinking practices like user research, focus group feedback, lightweight usability testing, rapid prototyping, etc.
- Excellent skills with quick design reviews and recommendations, and able to quickly make concept sketches during stakeholder meetings
- Solid understanding of user-centered design principles
- Proven skills to create information architecture, navigation maps, wireframes and Lo/Hi-Fi prototypes along with design specifications are a must
- Ability to drive projects from start to finish with minimal supervision and to juggle multiple projects and priorities in a fast-paced, multi-disciplinary environment
- A good sense of composition, typography and visual balance

- HTML5 and CSS3 skills, with cross-browser, cross-platform compatibility; familiarity with basic scripting, functional prototyping; translate visual design from mockups to front end templates will be awesome to have, though not a must

- A good communicator with excellent negotiating and presentation skills
