

Company :	Amberstudent
Company Name :	Amberstudent
Nature Of Business :	Internet
Designation :	Full Stack Developer
Tentative Job Location :	Remote

Responsibilities:

- â— You will be responsible for taking end-to-end ownership of development of beautiful, fast, and responsive mobile and web applications.
- â— You will have attention to detail.
- â— You will care about the quality of code, design patterns and testability.
- â— Meeting with the development team to discuss user interface ideas and applications.
- â— Reviewing application requirements and interface designs.
- â— Quickly build functional prototypes to solve internal and external use-cases
- â— Troubleshooting interface software and debugging application codes.
- â— Documenting application changes and developing updates.

Requirements:

- â— You have good experience building applications in high level programming languages - Javascript, Python or Go, and modern UI frameworks like React.js. We code primarily in Javascript, so you'll be excited to either ramp up on that or continue building awesome things with it.
- â— You possess strong Computer Science fundamentals - Algorithms, Networking and Operating Systems, and are familiar with various JavaScript tools, frameworks, and development practices.
- â— In-depth knowledge of JavaScript, CSS, HTML and front-end languages and experience in building responsive layouts with CSS and HTML
- â— Experience with user interface design, UX and design sensibilities.
- â— You're passionate about working with different tools and technologies to deliver end-to-end solutions.
- â— You write testable, maintainable code that's easy to understand.
- â— You are a good communicator who can explain technical concepts to product managers, designers, support and other engineers.
- â— You have curiosity about how things work
- â— Awesome to have
- â— Product and UX Design
- â— Figma skills
- â— Dev-Ops
- â— Built a product from the ground up, while following best practices in coding, testing, security and documentation
