

**GERB****GERB**

## Infrastructure Projects

## Structural Engineer for Infrastructure Projects

## Professional Experience

## Mandatory

- **Knowledge of Seismic Characteristics of Engineered Systems, Seismic Forces, Seismic Analysis Procedures, Seismic Detailing.**

### Desirable

- **Knowledge of Building Codes and Engineering Software like ETABs, SAP & STAAD**

## Roles and Responsibilities

- **Developing in-depth knowledge of company's technology and associated engineering aspects and various value propositions to extent needed for consultative engineering activities to support Sales Team in the domain for Base Isolation or Seismic Protection Engineering work.**
- **Preparing and reviewing technical proposal for Base Isolation and Seismic Protection Solutions for Buildings and Tuned Mass Dampers or Various Damping Systems for Buildings and**
- **Presenting company's capability and credentials to new clients to generate leads.**
- **Analytical Evaluation of appropriateness of GERB Damping Solutions for Seismic Protections of Building and Infrastructural Facilities**

## GERB offers

- **Working on interesting and challenging projects in Base Isolation, Damping Systems for Building and Infrastructure Projects including Seismic Protection Systems for wide spectrum of structures/facilities in close coordination with International Experts in Germany.**

**Compensation** **In Line with Industry Standards**
