The Management Consulting – Analytics practice of PwC US Advisory leverages core data and industry skills to deliver analytics embedded consulting that enables strategy, technology, and operations. The firm's approach to client service is based on objectivity, collaboration, and an unwavering commitment to its clients' best interests. We serve Fortune 500 clients in industries such as consumer packaged goods, financial services, logistics, manufacturing, retail and distribution, telecommunications, healthcare, insurance, and public sector organizations. The nature of work varies from project engagements to building out innovative service

Description: offerings customized to client/industry requirement.

Our Associates help clients across industries to improve business performance, effectively manage risks, and extract value from day-to-day transactions by being an integral part of diverse teams for engagements rooted in fact-based analytics. Our Associates are responsible for end to end project delivery, knowledge harvesting and sharing, and communicating with senior members of the team and/or client.
