Vehicle Dynamics Engineer

Tentative Job Location :

Chennai

Vehicle Dynamics Engineer Eligibility We strongly prefer working with individuals who are passionate about aerospace and are willing to work with us for the long term. WHAT IT TAKES • If you know why water tanker lorries in India have their tops open - this is for you. (Even better if you have tried to model slosh dynamics of a water tanker lorry). • If you can mathematically predict the instantaneous position and velocity of how your life will evolve - this is for you. • If you like designing autopilots - this is definitely for you. RESPONSIBILITIES • Design, analyze and build flight dynamics models for launch vehicles. • Design high fidelity simulations of

hypersonic flight systems, deriving from experience in flight dynamics, navigation, guidance, and control. BASIC QUALIFICATIONS • Bachelors / Master's degree in controls engineering, aerospace or mechanical engineering or any degree that enhanced your ability to model systems mathematically. • 2-3 years of experience in mathematically modeling system dynamics. • A fascination to bring space closer to everyone on earth.

Description:

PREFERRED SKILLS AND EXPERIENCE • Master's degree in aeronautical/astronautical, aerospace or mechanical engineering. • Understanding of software-in-the-loop and hardware-in-the-loop development. • Design and analyze control approaches for complex vehicle systems, leveraging modern synthesis and analysis methods. • Be able to understand vehicle plant dynamics and select appropriate control methods. • Research and create launch vehicle guidance algorithm. • Understanding of system dynamics, trajectory optimization to develop algorithms suitable for simulation and onboard use. ADDITIONAL REQUIREMENTS • Must be available to work extended hours and weekends as needed. What you could take away?

• Your work will directly impact the company's (and the rocket's) trajectory. • You will learn rocket science from some of the most senior and respected minds in ISRO. • You will work on shaping space policy in India. • You will dirty your hands in a global supply/chain optimization problem.
