### Semiconductor

## Senior RF/MS IC Design Engineer

Tentative Job Bangalore Location:

## Job Description:

- IC development & implementation of high-performance RF and Analog Circuits and Systems
- Develop high performance building blocks such as PLLs, ADCs, DACs, Op-amps, Xtal oscillators
- Will gain experience in IC tapeout and productization and hands-on experience leading the test and debug efforts for products.

#### **Description:**

- Work with Communication/ RF Systems engineers to translate system level specifications to block level specifications, and use deep knowledge of state-of-the-art circuit techniques to optimize the system architecture
- Work with ASIC and physical design engineers to integrate and verify the design at top level
- Take designs from product definition through tapeout, characterization, and release to high-volume production with high yields and robust performance

#### Required Skills:
