Company :	**Citrix R&D India Pvt Ltd**
Company Name :	**Citrix R&D India Pvt Ltd**
Nature Of Business :	**Core IT**
Designation :	**Software Engineer 1**
Tentative Job Location :	Bengaluru

We are looking for smart, enthusiastic people to join our software engineering teams. We love it here, and we know you will too. To learn more about what makes Citrix a great place to work, join us!
Citrix is looking for exceptional, enthusiastic university graduates! Do you want your work to have an immediate and lasting impact to external and internal customers? This role provides an opportunity to participate in the software engineering process of a major, worldwide software company defining the future of work with open and closed-source projects at its core. Agile teams at Citrix are powering digital transformation for business to thrive in the cloud era, embracing mobile users, personal devices, wireless access, app stores, SaaS, and cloud infrastructure.
Minimum Requirements:
ï,· Mater's/ Bachelor's Degree from an accredited university
ï,· Understanding of software development lifecycle process
ï,· Understanding of operating systems and computer networking
ï,· Understanding of Computer Science fundamentals (e.g., algorithms, data structures)
ï,· Proficient in a one or more object oriented programming language (C, C++, Java)
ï,· Experience with one or more scripting languages (e.g., Unix shell, PERL, Java Script, PowerShell)
All candidates should preferably be:
ï,· Willing to work on diverse products and projects, each requiring different technologies, methodologies and approaches
ï,· Willing to continuously learn and improve in a dynamic environment through external courses, internal courses, mentoring with highly experienced and skilled engineers and/or on-the-job training on projects
ï,· Willing to work on the latest virtualization and cloud technologies, advancing towards the Citrix vision of consumer driven access to applications, desktops and cloud based computing. You will also receive general guidance on work that may span multiple disciplines of software engineering while following established practices and procedures
ï,· Familiar with cloud computing technologies such as Microsoft Azure or Amazon EC2
Personal qualities we look for:
ï,· Strong written & verbal communication skills
ï,· Self-motivated individuals, with a strong desire to learn and develop
ï,· A can-do positive, pro-active attitude
ï,· Passion for technology
Ready. Set. Create.
